

EMPLOYER NETWORKS

The **Employer Network Pilot** is a new CITB initiative, trialling an alternative method of funding training in Croydon, Lambeth Sutton and Merton.

All CITB registered employers – who are up to date with levy payments, or exempt, can take part and benefit from the funding available... and there's no cost to join!

WHAT ARE THE BENEFITS OF JOINING?

- employers decide how funds are used and on what
- employers decide how much of the funds contribute towards each training need
- this is an opportunity to be part of a new employer led approach to providing funding for training and skills delivery locally
- employers will no longer need to claim for training using the CITB grant scheme.

A FLEXIBLE APPROACH

Employer Networks are testing a more flexible funding approach than is available through current CITB funding routes.

- training isn't limited to a prescriptive list or restricted to a certain amount of financial support, as it is with the short duration grant scheme
- training doesn't need to be agreed up front, as it has to be with the **Skills & Training** fund
- Employer Networks are able to respond more quickly to changing local skill needs.
